Double degree programs

Faculty of Business, Babeş-Bolyai University

Why choosing a double degree program?

You want international experience but you want also a pragmatic outcome – a degree from each institution, combining two cultural approaches to the same field, helping you to perform better in both worlds (Romania and the Receiving country). Or you just like the idea of "two in one" :)

You are targeting a career at an international level. The professional opportunities, teaching methods, students and teachers diversity help you to accelerate your multicultural skills development and integrate you into the global trends and markets.

You do have a specific professional interest and the receiving institution has classes and offers experiences that help you immerse yourself deeper into this fields and helps you to design your own developmental mix.

Our double degree partners are:

EM Normandie, France, Le Havre campus

FH Aachen University of Applied Sciences, Germany, Aachen campus

Department of Economics and Business, University of Sassari, Italy, Sassari campus

What do our students think?

Maria Panaite – Double degree student at FH Aachen University of Applied Sciences, Germany 2020-2021

“The Double Degree Program at the FH Aachen has been an amazing experience. After an Erasmus semester in Munster, I have chosen to continue my bachelor in Germany because of its high-quality studies, skilled professors, and multicultural environment.

Pursuing the Double Degree Program has offered me the skills and international experience needed to reach my career goals, being an enriching experience both socially and intellectually. All the projects, the teamwork,

the internship has helped me grow in both dimensions - personally and professionally, making me a more open-minded and flexible person.

During the year, I have also had the chance to take free German language courses and learn the language in its native environment. This is also an important competitive advantage offered by the program for the professional career which I want to pursue.

Aachen is also a beautiful city with lots of historical monuments, cathedrals, and an active social life. There is always something to do and see in the city and outside of it. Having the boundaries between Belgium and the Netherlands - it is very convenient to travel from Aachen to nearly every country in Europe.”

Justin Marian Terciu – Double degree student at Ecole de Management de Normandie, France, 2020-2021

“I am writing these lines while I am blocked in my apartment due to a new lockdown in France and I still do not regret that I pursued the double-degree program at EM Normandie. I think this says a lot about my experience here.

I want to emphasize a couple of reasons thanks to which I would recommend this program to the other students. In the first place, I strongly believe that exposure to a vastly different yet broad-minded way of teaching and thinking is beneficial for both my career and my personal development.

To be more precise, here I came across friendly teachers that have a strong background in business, some of them being top executives, across top students from all over the globe, and across the French culture that challenged my stereotypes.

Moreover, I consider that the kind of education that I received here which is more focused on personal and critical thinking, teamwork, and predominately internationally oriented completes perfectly the more pragmatic and theoretical education that our faculty offers creating a synergy that will surely help me to better navigate the business world.

On top of the educational matters, I found here great facilities, good wine, a seaside, lots of amazing sites to visit and I made some incredible friends, plus I found each semester some friendly faces such as Mr. Păun or Mr. Sofică.

To conclude, I would encourage every student to dare more from themselves and to go for an experience that would bring great value into their lives.”

University

EM
Normandie,
France, Le
Havre Campus

*Double degree
bachelor & master programme*

**Faculty of Business,
Babeş-Bolyai University &
EM Normandie, France, Le
Havre Campus**

EM Normandie is a Business School founded in 1871 and now located both in France and abroad. This School offers to 4500 students the opportunity to operate in an international environment on its 5 campuses in France, the UK, and Ireland. These campuses, from Caen, Le Havre, Paris, Oxford and Dublin, are multicultural environments thanks to the many nationalities at the School, as well as places for exchange to work in, where 340 team members including 81 full-time Faculty members meet, men and women with a variety of rich personalities, careers and expertise.

Bachelor level. Students who will choose the double degree programme will

attend the first two years of the programme at the Faculty of Business, obtaining 120 ECTS and the third year they will be in a study mobility at EM Normandie, being mandatory to obtain another 60 ECTS. At the end of the three years of study they will present the defence of their bachelor thesis at their home university and at the partner university.

Master level. Students who will choose the double degree programme will attend the first year of the programme at the Faculty of Business, obtaining 60 ECTS and the second year they will be in a study mobility at EM Normandie, being mandatory to obtain another 60 ECTS. At the end of the two years of study they will present the defence of their master thesis at their home university and at the partner university.

UNIVERSITÀ DEGLI STUDI DI SASSARI

*Double Degree
only Master Programme*

Faculty of Business, Babes-Bolyai University & Department of Economics and Business, University of Sassari, Italy

With over ten thousand students across 2 campuses in Sassari and Olbia, the University of Sassari promotes courses and research projects with the active engagement of the local community and its global partners, creating an equal and sustainable environment for both students and staff members. The Department of Economic and Business Sciences of the University of Sassari responds to the demand for advanced training and scientific research that comes from the socio-economic reality and the production system of the country and the region. The student have the possibility of cultural exchanges, internships and training periods at national and international institutions and companies. The Master in Innovation Management for Sustainable Tourism is a new two-year program designed for students interested in entrepreneurship and innovation management for sustainable tourism. The courses are taught entirely in English in the city of Olbia.

Master level. Our master level, double degree agreement with University of Sassari is targeted towards the students of the Faculty of Business registered in the master programme Business Administration in Hospitality and International Tourism. Students who will choose the double degree programme will attend the first year of the programme at the Faculty of Business, obtaining 60 ECTS and the second year they will be in a study mobility at the University of Sassari, being mandatory to obtain another 60 ECTS. At the end of the two years of study they will present the defence of their master thesis at their home university or at the partner university. Students must submit a final thesis according to the rules of their university of origin but joint supervision will be possible either with a professor of the home university or with a professor of the other institution on the panel.
