

SYLLABUS

Academic year 2024-2025

1. Information regarding the programme

1.1. Higher education institution	Babeş-Bolyai University
1.2. Faculty	Business
1.3. Department	Business
1.4. Field of study	Business Administration
1.5. Study cycle	Bachelor
1.6. Study programme / Qualification	Business Administration (English)

2. Information regarding the course

2.1. Name of the course	Basic Accounting						
2.2. Code	ILE0009						
2.3. Course coordinator	Lecturer George Silviu CORDOŞ, PhD						
2.4. Seminar coordinator	Lecturer George Silviu CORDOŞ, PhD						
2.5. Year of study	I	2.6. Semester	II	2.7. Type of evaluation	E	2.8. Type of course	compulsory

3. Total estimated time (hours/semester of didactic activities)

3.1. Hours per week	4	Of which: 3.2. lecture	2	3.3 seminar/laboratory	2
3.4. Total hours in the curriculum	56	Of which: 3.5. lecture	28	3.6. seminar/laboratory	28
Time allotment:					ore
Learning using manual, course support, bibliography, course notes					28
Additional documentation (in libraries, on electronic platforms, field documentation)					28
Preparation for seminars/labs, homework, papers, portfolios and essays					28
Tutorship					2
Evaluations					2
Other activities:	Final exam preparation				6
3.7. Total individual study hours					94
3.8. Total hours per semester					150
3.9. Number of ECTS credits					6

4. Prerequisites (if necessary)

4.1. curriculum	
4.2. competencies	

5. Conditions (if necessary)

5.1. for the course	Classroom equipped with projector, computer
5.2. for the seminar /lab activities	Classroom equipped with projector, computer

6. Specific competencies acquired

Professional competencies	C1. Gathering, processing and analysing data regarding the interaction between a company/an organisation and the external environment C1.2. Explanation and interpretation of the relationship of economic influence exerted by the external environment on the enterprise/organization C2. Providing assistance for running a company/an organisation as a whole C2.1. Identification of economic concepts and theories associated with the enterprise/organization
Transversal competencies	CT1. Implementing ethical principles, norms and values within one's own rigorous, efficient, and responsible strategy of work

7. Objectives of the course (outcome of the acquired competencies)

7.1. General objective of the course	<ul style="list-style-type: none">• Introduction to accounting science issues;• Training skills needed Recognition of economic operations conducted within economic entities;• Substantiation scientific basis for students to form a genuine professional judgment;• Developing students' ability to understand and master the economic phenomena of activity of economic entities; Create individual student study permissive conditions;• Involving students in research activity book.
7.2. Specific objective of the course	<ul style="list-style-type: none">• Make a financial accounting analyzes the main economic transactions carried out by economic entities;• Coverage of economic operations in the accounting units;• Ability to apply professional reasoning in the analysis of economic operations at the unit level asset, the economic entity;• Ability to prepare, present and analyze accounting records;• Ability and capacity to prepare, present and analyze the financial statements of the economic entity.

8. Content

8.1. Course	Teaching method	Remarks
1. The main component of accounting information system economically. Accounting framework	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> History and evolution of accounting Approaches to Accounting Accounting information and its users Coordinates accounting The legal entities in which it holds accounting
2. The subject of accounting	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> Concepts and theories on the subject of accounting Accounting Theory Concept of accounting subject Normalization accounting Objectives of Accounting Characterization key economic assets and liabilities Synthetic presentation of heritage assets and liabilities Revenues, expenses and results - the subject matter of Accounting Cash - a way of presenting movement patrimonial elements
3. Accounting methods	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> Content notion of method of accounting Fundamentals of Accounting Principles of accounting regulations Methods and tools of accounting
4. Economic operations, process documentation of accounting method	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> Concept, content and functions of economic documents Preparation and drafting of economic documents Typing, economic circuit and checking of economic documents Filing and maintaining of economic documents
5. Quantifying economic transactions and accounting operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> Costing - Method of accounting method The content, role and principles of accounting calculation Assessment - The process of accounting method The notion, needs and assets assessment principles Steps and the assessment of property items and prices used Reassessment of economic elements
6. Double-entry bookkeeping - fundamental characteristic of accounting	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> Dual representation of heritage with balance Double determining the outcome Impact on heritage and economic operations results Double entry and movement of the existence of the patrimonial elements

7. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Economic necessity and content of account • Graphical form and structure in • The rules of accounts • Double entry and correspondent accounts • Analysis of economic and accounting operations accounting formula
8. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Evidence chronological and systematic • Classification of accounts
9. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Accounting for permanent capital formation • Accounting for assets, inventories and cash • Accounting for assets and liabilities • Accounting for income
10. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Accounting for assets, inventories and cash
11. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Accounting for assets and liabilities • Accounting for income
12. Account - instrument of double accounting records in economic operations	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Definition and inventory functions • Classification of inventories • Steps inventory
13. Balance Sheet	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Concept, content and balance sheet functions • Classification checking balances • Prepare the balances sheet • Identify accounting errors with the balances sheet
14. Financial statements	Exposure interactive, problem-solving, practical applications	<ul style="list-style-type: none"> • Financial statements - periodic reporting documents • Works preliminary financial statements • The balance • Profit and loss account
