

**COURSE DESCRIPTION**  
**Financial Accounting**  
Academic year 2026-2027

**1. Programme-related data**

|                                       |                                                                                  |
|---------------------------------------|----------------------------------------------------------------------------------|
| 1.1. Higher Education Institution     | Babeș-Bolyai University                                                          |
| 1.2. Faculty                          | Business                                                                         |
| 1.3. Department                       | Business                                                                         |
| 1.4. Field                            | Business Administration                                                          |
| 1.5. Level of study                   | Bachelor                                                                         |
| 1.6. Degree programme / Qualification | Business Administration in Hospitality Services/<br>Bachelor in Economic Studies |
| 1.7. Form of education                | Full time                                                                        |

**2. Information regarding the discipline**

|                             |                                   |               |   |                         |                   |
|-----------------------------|-----------------------------------|---------------|---|-------------------------|-------------------|
| 2.1. Name of the discipline | Financial Accounting              |               |   | Discipline code         | ILE0014           |
| 2.2. Course coordinator     | Lecturer Iustin Atanasiu POP, PhD |               |   |                         |                   |
| 2.3. Seminar coordinator    | Lecturer Iustin Atanasiu POP, PhD |               |   |                         |                   |
| 2.4. Year of study          | 2                                 | 2.5. Semester | 1 | 2.6. Type of assessment | Exam              |
| 2.7. Course status          | Compulsory                        |               |   | 2.8. Course type        | Domain discipline |

**3. Total estimated time (hours per semester of teaching activities)**

|                                                                                           |    |                       |    |                                   |              |
|-------------------------------------------------------------------------------------------|----|-----------------------|----|-----------------------------------|--------------|
| 3.1. Number of hours per week                                                             | 4  | of which: 3.2. course | 2  | 3.3. seminar/ laboratory/ project | 2            |
| 3.4. Total of hours in the curriculum                                                     | 56 | of which: 3.5. course | 28 | 3.6. seminar/ laboratory          | 28           |
| <b>Time allocation for individual study (IS) and self-taught activities (ST)</b>          |    |                       |    |                                   | <b>hours</b> |
| Learning from textbooks, course materials, bibliography, and notes (IS)                   |    |                       |    |                                   | 14           |
| Additional research in the library, on subject-specific electronic platforms, and on-site |    |                       |    |                                   | 14           |
| Preparing seminars/ laboratories/ projects, assignments, reports, portfolios, and essays  |    |                       |    |                                   | 28           |
| Tutoring (professional guidance)                                                          |    |                       |    |                                   | 2            |
| Examinations                                                                              |    |                       |    |                                   | 2            |
| Other activities                                                                          |    |                       |    |                                   | 9            |
| 3.7. Total hours of individual study (IS) and self-taught activities (ST)                 |    |                       |    | 69                                |              |
| 3.8. Total hours per semester                                                             |    |                       |    | 125                               |              |
| 3.9. Number of credits                                                                    |    |                       |    | 5                                 |              |

**4. Prerequisites (where applicable)**

|                         |  |
|-------------------------|--|
| 4.1. curriculum-related |  |
| 4.2. skills-related     |  |

**5. Specific conditions (where applicable)**

|                                 |                                             |
|---------------------------------|---------------------------------------------|
| 5.1. course-related             | Classroom equipped with projector, computer |
| 5.2. seminar/laboratory-related | Classroom equipped with projector, computer |

## 6.1. Competencies resulting from the completion of the degree programme

| Professional competencies |                                                                                                                          |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Competency code           | Competency                                                                                                               |
| PC2                       | Business environment research for substantiation of business decisions.                                                  |
| Transversal competencies  |                                                                                                                          |
| Competency code           | Competency                                                                                                               |
| TC1                       | Implementing ethical principles, norms and values within one's own rigorous, efficient, and responsible strategy of work |

## 6.2. Learning outcomes relevant to the degree programme

| Learning outcomes targeted by the subject |                                                                                                                                                                                                                        |                                                                                                                                                                              |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Competency code                           | Knowledge and comprehension                                                                                                                                                                                            | Specific academic skills                                                                                                                                                     |
| PC1<br>PC2<br>TC1                         | 1. The graduate has knowledge of accounting, processing, and analysing of economic and financial information required for an effective organisation and management of companies operating in the hospitality industry. | 1. The graduate is able to use methods, techniques, and tools specific to the financial and accounting management of an enterprise as a whole, specialist software included. |

## 7. Subject-specific learning outcomes

| Knowledge and understanding                                                                                                              |
|------------------------------------------------------------------------------------------------------------------------------------------|
| 1. The student/graduate identifies users of financial-accounting information and their informational needs.                              |
| 2. The student/graduate describes the financial reports of economic entities.                                                            |
| 3. The student/graduate analyzes the transactions and events that must be recognized in the accounting.                                  |
| Specific academic skills                                                                                                                 |
| 1. The student/graduate prepares the information in the financial reports to substantiate economic decisions.                            |
| 2. The student/graduate judges' situations specific to the recognition of items in financial reports based on accounting regulations.    |
| 3. The student/graduate interprets the financial reports of reporting entities, reports financial and non-financial information to users |

## 8. Contents

| 8.1. Course                                               | Teaching and learning methods                                 | Remarks                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------------|---------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. The legal framework of financial accounting in Romania | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Review concepts - Basic Accounting;</li> <li>Normative character of financial accounting;</li> <li>Accounting systems and accounting regulations representative in Romania;</li> <li>Ways of organizing and managing the financial accounting in Romania.</li> </ul> |
| 2. Capital accounts I                                     | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>The content, role and structure of capital;</li> <li>Organize financial accounting of capital;</li> <li>Accounting for equity.</li> </ul>                                                                                                                            |

|                                                                  |                                                               |                                                                                                                                                                                                                                                                                                                                                |
|------------------------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Capital accounts II                                           | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Accounting for financial results and reserves.</li> </ul>                                                                                                                                                                                                                                               |
| 4. Capital accounts III                                          | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Accounting leveraged.</li> </ul>                                                                                                                                                                                                                                                                        |
| 5. Accounting for fixed assets I                                 | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Definitions and clarifications on assets;</li> <li>Particularly in terms of assessment and reassessment of assets;</li> <li>Evidence of assets;</li> <li>Impairment of fixed assets;</li> <li>Accounting for intangible assets and tangible.</li> </ul>                                                 |
| 6. Accounting for fixed assets II                                | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Accounting for intangible assets and tangible</li> <li>Accounting for financial assets;</li> </ul>                                                                                                                                                                                                      |
| 7. Production accounting for inventories and work in progress I  | Exposure interactive, problem-solving, practical applications | <ul style="list-style-type: none"> <li>Accounting for inventory purchased from third parties (delimitation and classification, particularly in the assessment accounts, records and analytical accounting methods).</li> </ul>                                                                                                                 |
| 8. ## 9. Evaluation

- The same evaluation criteria are maintained for all exams sessions. The components of the evaluation process carried out during the semester cannot be recovered/redone in the examination sessions.
- To be able to accumulate the points obtained during the semester, it is mandatory to obtain a minimum of 5 (five) in the final exam (written/oral).

| Type of activity                                                                                                                                                                                                                                                                                                                             | 9.1 Evaluation criteria                                                                                                       | 9.2 Evaluation methods              | 9.3 Percentage in the final grade |
